

HONOLULU'S TURN NOW

San Francisco Declared Infected Port.

HEALTH BOARD'S ACTION

Australia Is Quarantined and Cargo
Will Be Fumigated—Other
Vessels Also.

(From Thursday's Daily.)

Now comes Honolulu's turn. San Francisco is an infected port. The California State Board of Health, the Federal authorities in San Francisco, and the Hawaiian Board of Health have so declared. Honolulu will take precautions to prevent the plague from reaching here through infected merchandise from San Francisco.

The arrival of the Australia yesterday without a clean bill of health precipitated action by the Board of Health here. The Board called a meeting yesterday afternoon and adopted the following resolution:

"That the freight of the steamship Australia be required to be discharged on the channel wharf there to be handled at the discretion of the Board of Health. Goods to be fumigated to be removed from said wharf to fumigation chambers. Other goods to be properly disinfected on outside of cases with solution of sulphuric acid to the satisfaction of the Board of Health. All of the foregoing to be at the expense of consignee."

At the meeting of the Board, Dr. Wood presided. Those present were Dr. Emerson, George W. Smith, E. C. Winston and F. J. Lowrey, members of the Board, while W. O. Smith was a special guest.

San Francisco Infected.

Dr. Wood said the Board must consider the question of cargoes from San Francisco. Under date of May 26, the Executive Council had voted that the Channel wharf be set aside for unloading cargoes from infected ports. But the wharf was not ready and the Council could not have been aware of the condition of the wharf, as there was no fumigating plant on it and cargo would have to be lightered. Dr. Wood had explained to President Dole. On May 30 he got a reply, he having asked Mr. Dole also whether San Francisco was included in this order. Dr. Wood represented to the Cabinet that he knew there was plague at San Francisco, though no official notice had been given. Honolulu, said vessels up to May 30 had brought clean bills of health. The following was the reply from the Executive:

Honolulu, H. I., May 30, 1900.
Dr. C. B. Wood, President of the Board of Health, Honolulu.

Sir: It was voted in the Executive Council this morning that the following letter be sent you:

"You are instructed to carry out the resolutions of May 25th, received by you May 26th, with this modification, that the Pacific Mail wharf or other wharves, in your discretion, may be used for discharging freight, as well as the channel wharf."

Also the port of San Francisco is to be regarded as an infected port, or a port where contagious disease has appeared within sixty days, so long as the present conditions there continue.

"Also that the Executive Council approve of a resolution by the Board of Health in regard to the question of fumigation and disinfection of the different kinds of goods coming to this port via San Francisco, from different places in the United States and elsewhere, and from other ports, and in the execution of the authority of the Board of Health."

I have the honor to be, sir, your obedient servant,

KATE KELLEY,
Clerk Executive Council.

No Precautions Taken.

Dr. Wood said to the Board that the vessels from San Francisco had not been kept there the requisite distance from wharves, nor had their cables been "cat-guarded." This morning he had received information of the presence of plague in San Francisco. Dr. Wood read the Australia's bill of health and also a communication from the State Board of Health.

The bill of health said that there had been no plague since May 16, and that the United States quarantine officer reported ten authenticated cases of bubonic plague in San Francisco, at least in the limits of Chinatown, the last case being on May 16. "At the present time no cases are known to exist," said the bill.

The State Board of Health's communication was as follows:

Sacramento, Cal., May 22, 1900.
To the Secretary, Board of Health, Honolulu.

Dear Sir: Reports outside of this State of the existence of bubonic plague here have been greatly exaggerated. The State Board of Health of California has carefully inquired into the facts, and officially report them to you as follows:

"There have been no deaths of the following dates: First case, March 6th; second case, March 15th; third case, March 17th; fourth case, March 18th; fifth case, April 24th; sixth case, May 11th; seventh case, May 11th; eighth case, May 14th; ninth case, May 15th."

All the cases were Chinese found dead in their tenement quarters, known as Chinatown. That they died of bubonic plague was established by bacteriological investigation by the City Board of Health, and confirmed by Dr. Kinnear, the United States Quarantine Officer of the port of San Francisco.

At this time there are no known cases of bubonic plague in California. The Board of Health of the city of San Francisco is taking every precaution to prevent the recurrence of the disease, with every hope of success. No other part of the State has been nor is now affected. Should any further danger arise we will immediately notify you of it. Yours truly,

W. P. MATTHEWS,
Secretary California State Board of Health.

Plague is Certain.

Dr. Wood said: "We have precaution in formation of plague in San Francisco for at least ten weeks and that there has been none of the regular and necessary precautions as here and in Sydney. The rats were not looked after. The normal death rate of Chinatown was a few more than 1-2-3 deaths a day, and now only two a week are reported, which shows that deaths are being hidden. When the California State Board of Health reports every precaution being taken against the plague it reports sanguinely to say the least."

The Australian, however, as noted cargo in her holds, including Chinese merchandise and food, etc. It is said that the cargo is an infected port some of the cargo is undetected by our rules and all of it is mixed up. It was not fumigated or protected against rats in San Francisco.

"I asked the Executive Council today at noon about the matter. I was instructed to fumigate all cargo, to allow the Australian agents to remove the cargo to San Francisco. I have protests from the company which I will read later. Now, about other infected ports. Hongkong has no wharves and rats can't get aboard in that way, but they do come in packages of merchandise. There is no doubt that we got the cargo through rats or merchandise. Those came down with plague here. We had old rats and not new ones, proving that the plague did not come through human infection."

Dr. Wood Explains.

"In Sydney its wharves are protected, and vessels are kept away from the wharves. Sydney's Board of Health sends us reports and shows that the holds of vessels are fumigated and the proper precautions taken. In San Francisco no precautions are taken to guard the wharves, nor has the search for rats been made. Considering all these facts, I think vessels from San Francisco should not be allowed to come up to our wharves, nor should we take any chances. The merchandise should be fumigated thoroughly. It is not possible to work that plague has existed in San Francisco ten weeks and the rats not become infected. They are the most susceptible of all animals. The rats die because they die of plague; they don't emigrate or hide. They die, and it is certain that plague rats are in San Francisco, and have probably traveled from Chinatown to the wharves and other parts of the city. They are probably in the holds of vessels coming here from San Francisco. I stated some of these things to the Council this morning, and they agreed that San Francisco should be treated as an infected port. I wrote the following letter to the agents of the Australia:

June 6, 1900.
Messrs. W. C. Irwin & Co., Agents Oceanic Steamship Company.

Gentlemen: In view of the fact that official information has been received at this office that bubonic plague exists in San Francisco and has been declared by the San Francisco Board of Health, in accordance with instructions received from the Executive Council, I hereby notify you that the cargo in the holds of the steamship Australia, which arrived here from San Francisco this morning, will be received at this port only on the condition that it is fumigated to the satisfaction of the Board of Health.

Further, the Australia will be required to discharge all cargo at the Pacific Mail wharf and convey it directly into the fumigating rooms by daylight and without delay upon the wharf. The deck cargo consisting of fruit, fresh fish, etc., will be received without fumigation. The steamer will be required to keep at least 50 feet away from the dock and have all cables guarded by rat-proof shields.

Very respectfully yours,
C. B. WOOD,
President Board of Health.

Must Fumigate.

"I submit this letter to the Board," said Dr. Wood.

In reply to a question by Lowrey, Dr. Wood said the agents of the Australia had said that the Board of Health must fumigate the cargo if it was fumigated. Dr. Wood thought the agents should be given the alternative of fumigation or taking back.

Lowrey asked how it would do to let the Australia lie here until a change of government took place in a week or so and then let the United States authorities take the burden of decision.

Dr. Wood said the Board should not shirk the decision but make it themselves.

Fred Whitney of W. C. Irwin & Company said the refrigerated goods could not be gotten out without removing part of the general cargo. Dr. Wood said there was real danger. The plague in San Francisco was no phantom. Hawaii had about a week of existence as an independent country and the Board should take it on itself to turn over this port clean to the Federal authorities.

G. W. Smith said he did not believe freight could be fumigated properly on any wharf but the Quarantine wharf.

Dr. Garvin said it would take a week or more to complete the fumigating machinery on the Quarantine wharf. Dr. Wood said that freight in the fumigating chambers was not removed expeditiously. The consignees paid no storage, and answer in no hurry. How long the morning Dr. Wood said he had ordered the freight taken from the fumigating chambers at once. It would take two or three days to do this.

W. O. Smith speaks.

Lowrey moved that the letter sent by Dr. Wood to the Australia agents be approved. Dr. Emerson asked if certain packages of photographic material could not be removed and cleaned without entering the fumigating chambers which would ruin it. Dr. Wood said the difficulty would be in finding any certain material.

G. W. Smith asked as to the liability of the Board for damages for compelling the steamship company to return the freight to San Francisco.

W. O. Smith, called on for an opinion, said that any country had the right to protect itself against infection. Just how far a country could go, recently in New York he had talked with the health authorities on the matter of guarding against infection and he had learned that in New York they had to guard against all kinds of diseases and took various forms of precaution. Sulphur fumigation was the general plan and usually it was burned in containers. W. O. Smith enlarged on this subject and gave much valuable information.

Resolution Adopted.

Dr. Emerson suggested having the consignees identify goods on hand and care for them at once. This was not thought practical. Mr. Whitney said two-thirds of the cargo was food-stuffs which would be injured by fumigation.

Dr. Wood said he had no sympathy with the shippers in San Francisco as they were the merchants who had prevented the San Francisco Board of Health recognizing the presence of plague and they would doubtless be taught a lesson. Mr. Whitney said the hardship would fall on the consignees here and on the people here who want the food.

G. W. Smith made a motion that the freight of the Australia be required to be discharged on the Channel wharf, there to be handled at the discretion of the Board of Health. Goods to be fumigated to be removed from said wharf to fumigation chambers. Other goods to be properly disinfected on outside of

cases with solution of sulphuric acid and to the satisfaction of the Board. All of the foregoing to be at the expense of consignee.

This was adopted.
Dr. Wood said it would facilitate discharging cargoes if they could be handled at night. G. W. Smith thought it best not to handle cargoes after dark. Dr. Emerson was in favor of night unloading, and so was Winston.

Dr. Wood said the S. C. Allen and the W. Curtis, sailing vessels, were in and must be considered. More vessels were expected right along. It was concluded to treat all as the Australia was ordered to be treated. The Board adjourned at 6 o'clock to 7:30 o'clock.

EVENING SESSION.

Much Routine Work and Many Incidents are Handled.

At the evening session of the Board of Health there was considerable routine business that had to be transacted.

If the more important matters, the reports of City Sanitary Officer Pratt and the Chief Sanitary Inspector are of particular interest inasmuch as they clearly show the work that is being done by the health authorities to prevent the existence of conditions in Honolulu which were only too common during the days of the old Chinatown.

Pratt's report on the great number of nuisances done away with during the last month and many buildings permits investigated.

The Board refused to entertain the claims of Mr. Kennelly, a tourist, who passed through Honolulu not long since from the Colonies, and who left with his attorney here the recovering of damages from the Board of Health for the alleged loss of certain silver-based emeralds, gold match-boxes and similar valuables from his "box" and "luggage" in the fumigating room.

Dr. Garvin had examined into the matter very thoroughly and ascertained nothing that would in any way substantiate the gentleman's claims. The attorney representing the traveler will be notified today of the Board's decision.

Agents of the Board of Health boarding vessels at other Hawaiian ports outside of Honolulu will be notified that San Francisco has been declared a plague infected port and that all vessels coming from there must be treated accordingly.

A vote of thanks was tendered the Finance Committee for services rendered and the Committee was discharged.

The Executive Officer of the Board, Dr. Garvin, was instructed to effect a settlement with C. A. Doyle in regard to certain money collected at the Drill Shed camp for the inmates for rent, which settlement had unavoidably been delayed.

CABINET SAYS INFECTED.

Favors Treating Australia as Coming From a Plague Port.

Dr. Wood, president of the Board of Health, reported to the Cabinet during a session yesterday that the steamer Australia arrived in port from San Francisco, bringing a bill of health to be effect that the Board of Health at the latter port had declared that plague existed there, the last case occurring May 16, but that all cases had been confined to Chinatown.

He stated he had allowed the passengers to come ashore and had also permitted the deck load of fruit to be landed. There were Chinese food stuffs in his hold, and these he would not allow to be discharged until all the goods had been fumigated. The agents had strongly objected to this plan, claiming that a large amount of the freight was perishable, and would therefore not undergo fumigation. He declared, however, that he would give them the option of having the freight fumigated or carry it back to the port from whence it was shipped.

President Dole and the Cabinet members favored treating San Francisco as the same as any other infected port.

Weak Children

How sad it is to see weak children—boys and girls who are pale and thin. They cannot enjoy the sports of childhood, neither are they able to profit by school life. They are indeed to be pitied. But there is hope for them.

Scott's Emulsion

has helped such children for over a quarter of a century.

Your doctor will tell you it is both food and medicine to them. They begin to pick up at once under its use. Their color improves, the flesh becomes more firm, the weight increases and all the full life and vigor of childhood returns again.

At all druggists, etc., and \$1.00.
SCOTT & BOWNE, Chemists, New York.

FAIL FOR \$16,000,000.

NEW YORK, May 24.—After a brief and at times spectacular career the brokerage house of Price, McCormick & Co., in which Walter Price, formerly a San Francisco newspaper reporter, was junior partner, and George Crocker of San Francisco a special partner to the extent of \$200,000, today closed its doors in failure.

The liabilities of the stranded house will total \$13,000,000, but as most of that sum is simply secured, it is generally estimated that the difference between assets and liabilities will hardly exceed \$2,000,000.

William J. Curtis, to whom the assignment was made, issued a brief statement, in which he characterized the suspension of payment as temporary and asked the secured creditors to hold their claims for a reasonable time to avoid unnecessary loss.

Stupendous operations on the bull side of the cotton market are responsible for the embarrassment of the house.

In the exchange the failure was discounted before it was announced and the market rallied very quickly. The Produce Exchange was not disturbed, but there was a panic on the Cotton Exchange.

George Crocker's connection with the house was not an active one, although he occasionally took a hand. He is not seriously affected, and his loss will not be large. In addition to Price, the members of the firm were William M. McCormick of Chicago, a nephew of the late Cyrus McCormick of Chicago, and Ralph Stewart Wortley, son-in-law of Admiral Schley.

The Panama Construction Company has been ordered to push work on the canal with all available laborers.

Myron H. Jones Dead.

By the Australia came the news of the death of Myron H. Jones, at one time in the office of Castle & Cooke and for several years organist at the old Port Street Church.

He was on board the steamer Ukiah crossing the San Francisco bay, May 24, when he either fell overboard or committed suicide. His body was recovered next morning near Tiburon. The deceased was the son of Rev. W. L. Jones, a former president of Oahu College, and a very able musician. Since leaving the islands he held the position of bursar at Tamalpais Military Academy, San Rafael, and played the organ frequently in San Rafael churches. He was 41 years of age.

PLANTERS IN SESSION

Agreement to Start the Passbook System.

LABOR BUREAUS IN PLAN

Convention Behind Closed Doors Thrashing Out the Problem of Employees.

The managers of the Hawaiian sugar plantations and planters in general met yesterday in the rooms of the Hawaiian Planters' Association for the purpose of discussing the labor question. An all-day session behind closed doors was held, and a notice was sent out that no newspapers would be allowed to have a representative in attendance.

Mr. C. Bolte, the secretary of the Planters' Association, stated last evening to an advertiser reported with reference to the day's proceedings:

"It has been recommended by the plantation managers to the trustees of the Hawaiian Sugar Planters' Association that labor bureaus be established on each of the different islands, and that the pass-book system be inaugurated again."

"Also that the plantations should stand together for mutual protection. This was the gist of the day's proceedings. It is understood, however, that one of the special features of the session will be the discussion of the immigration of Porto Rican laborers as proposed some weeks ago."

The men in attendance upon this important meeting of the plantation interests will have many hard nuts to crack as regards the new laboring conditions which will have to be met on and after June 14. It thereby becomes one of the most important meetings ever held by the planters. The list of managers and others present at the meeting, as furnished by Secretary Bolte, is as follows:

Managers from Island of Hawaii—Messrs. A. Moore, Paauhau; Horner, Kukula; J. A. Scott, Wainaku; Moir, Honoumuli; Hind, Kohala; Ross, Hahaione; Watt, Honokaa; Forbes, Kukuhaele; Lidgate, Paauilo; Hewitt, Kuaiehu.

Managers from Maui—Messrs. Ahlborn, Lahaina; Wells, Wailuku; Gjerdrum, Hana; Harry Baldwin, Pala; Logue, Kahului; Lowrie, Spreckelsville; Hocking, Nahu; Hansen, Olowalu.

Managers from Oahu—Messrs. Chalmers, Waimanalo; Bull, Heala; Weight, Nahu; Goodale, Waiwala; Renton, Ewa; Low, Honolulu; Ahern, Oahu.

Managers from Kauai—Messrs. Walters, Lihue; Conant, McBryde; Fairchild, Kealia; Ewart, Kilauea; Cropp, Koloa; Morrison, Makawili; Paye, Kekaha.

Agents and Owners—Messrs. C. M. Cooke, president, and C. Bolte, secretary Hawaiian Planters' Association; W. M. Giffard, J. B. Atherton, E. F. Bishop, Geo. H. Robertson, Jas. B. Castle, F. M. Swanzy, F. A. Schaefer, Paul Isenberg, C. F. Hart, Paul R. Isenberg, J. A. Hackfeld and A. Isenberg.

INTERNAL REVENUE. Hawaiian Part of Collector Lynch's District.

Robert N. Frick, F. H. Driscoll and B. M. Thomas of the United States Internal Revenue Service arrived here on the City of Peking from San Francisco last night to open an office in Honolulu. The San Francisco Chronicle of May 27 says:

Collector of Internal Revenue Lynch yesterday received a dispatch from Commissioner Wilson stating that the internal revenue laws take effect in Hawaii on June 14th. Collector Lynch is making preparations to establish an internal revenue office in Honolulu, the Hawaiian Islands having been added to his collection district. Chief Deputy R. N. Frick will leave for Honolulu on May 25th with a complete stock of internal revenue stamps. All deputies at the Honolulu office will be selected from citizens of Hawaii. The stocks of beer, wines, liquors, opium, cigars and tobacco now in the islands will be inspected and inventoried. After June 14th goods from the United States must be stamped before being sent to the islands. The concluding paragraphs of the dispatch are as follows:

Special agents are to be collected for the year beginning July 1, 1900, but not for the year ending June 30, 1900. Articles under schedule B in the hands of dealers June 15th must be duly stamped when sold at retail. Instruments and documents under schedule A must be stamped without reference to any documentary stamp tax previously in force in Hawaii. Instruments issued for circulation prior to that date do not require United States internal revenue stamps.

Registration of Chinese need not be immediately commenced. Section 161 of act of April 30, 1900, allows Chinese in Hawaii to obtain certificates of residence any time within one year from June 14th. Banks paying out Hawaiian bank notes are to be subject to 10 per cent tax. Hawaiian Government notes are not subject to this tax.

ARSHAL RAY. Something About One of Hawaii's New Officials.

WASHINGTON, May 26.—The position of first United States Marshal of Hawaii, it is conceded, will go to D. F. Ray of Illinois. Ray is secretary of Senator Cullom, who was chairman of the Hawaiian Commission that framed the bill creating the Territory of Hawaii, and had charge of the trip made by Commissioners Cullom, Morgan and Hitt. During the summer of 1899 Ray visited the islands a second time in the interest of the chairman of the Commission, looking into the question of imported Asiatic labor. He visited every island of the group and is acquainted with most of the leaders and business men of the islands.

Ray, who is now a man of 50, was born in Columbia county, N. Y., but has lived in Illinois many years. He was secretary of the Illinois State Senate in 1873-74, and continued with the State government some time in a semi-official capacity. He then located at Springfield, where he formed a close acquaintance with the leading men in the political life of Illinois. In 1889 he came to Washington.

Ray was a member of the surveying division of the General Land Office during the Harrison Administration, and later became private and political secretary to Senator Cullom. During several campaigns he was chairman or acting chairman of the Illinois Republican Central Committee.

The Exodus of Gold.—TOKYO, May 25.—The exodus of gold still continues almost incessantly. A few days ago, the Hongkong and Shanghai Bank shipped for the States \$300,000 worth of Japanese specie and a further shipment is expected to be made by the same bank.

NAGASAKI, May 22.—Fire occurred today at the theater in Navaro-mura, Minami-Matsuyagori, this prefecture, when seven persons were burnt to death, 32 others being more or less injured.

A Street Railway for Tokyo.—According to the Chuwa, the Home Office has decided to consent to the proposed construction of a street railway for Tokyo, 120 miles in length. The terms include a proviso that an amount corresponding to 7 per cent of the capital being deducted from the company's net profit, one-third of the balance shall be forwarded to the city as a tax on the company.—Japan Herald.

Kauhane is Dead.—Kauhane, the whistling boss of Honolulu, whose eccentric apparel and odd custom of shouting "Wela ka Hao" upon the street corners to the delight of small urchins, is no more. He passed away at Lunalia Home and is now beneath the sod. His funeral was largely attended by natives who were anxious to render the last sad offices to the old character of Honolulu's streets.

The old "Admiral," for he had numerous dignified titles, has been prominent upon gala days, or any affair that drew the crowd. If a Fourth of July procession was in motion, the "Admiral," clothed in the cast off uniform of a British officer of Marines, crowned by a military helmet, white parade gloves upon his horny hands, and flourishing a light stick with authoritative gestures, was one of the special features.

Upon the water-front when a transport was coming into the dock, Kauhane was sure to be present and his antics and commands to the ship's officers were such as to cause merriment galore, and put a dull, waiting crowd into the best of humor. Once during his inspection of the troops upon a transport, the Admiral had the misfortune to tumble off the wharf into the harbor. The old man however was equal to the occasion and swam strongly to the dock where he was pulled ashore nothing daunted.

During the quarantine a few months since, Kauhane became ill and was sent to the Victoria hospital for treatment, and from there was sent to Lunalia Home for indigent Hawaiians. His death was not unexpected, but will be regretted by many people who were amused at the old man's harmless antics upon the streets.

ABU TOWN.
Doan's Backache Kidney Pills in Honolulu.

Readers of the Honolulu papers are familiar with it. At first it created considerable excitement. Week after week went by and the good people of Honolulu ceased to wonder and settled down to the fact that what so many of their neighbors said must be true. Any medicine that is endorsed like Doan's Backache Kidney Pills by our own citizens soon becomes a household remedy. Ask any citizen of Honolulu what will cure kidney trouble and the answer invariably is "Doan's Backache Kidney Pills."

Mr. Charles Comey, of Cyclometers street, this city, is one of the many persons who have tried Doan's Backache Kidney Pills with great advantage. He relates his experience thus: "I have been a hack driver for a number of years past and this is an occupation in which, through exposure to weather and much jumping up and down from the vehicle, one is particularly liable to kidney complaint. I suffered myself, from a lame back for a long while, and in my anxiety to get rid of it tried several things which did not reach the root of my trouble. An advertisement acquainted me with what grand work Doan's Backache Kidney Pills were doing, and I got some of them at the Hollister Drug Co.'s store. I used them and with very much profit, for they relieved my back wonderfully."

Doan's Backache Kidney Pills are for sale by all dealers or sent by mail on receipt of price, 50 cents per box by the Hollister Drug Co., Honolulu wholesale agents for the Hawaiian Islands.

Remember the name Doan's and take no other.

Hawaiian Postal Service.
WASHINGTON, May 24.—The Third Assistant Postmaster General has prepared a letter of comprehensive instructions to the inspectors in charge of inaugurating the Hawaiian postal system in Hawaii. Honolulu is made the general delivery for the islands and this office is to be maintained in San Francisco.

Deputy again concedes Bryan's nomination.

GOOD WORK WELL DONE

The Woman's Board of Missions Meets.

SESSION OF GREAT PROFIT

Labors of the Year Reviewed By Members and Future Plans Outlined.

(From Wednesday's Daily.)

The Woman's Board of Missions for the Pacific Islands held its twenty-ninth annual meeting yesterday at Central Union Church. The morning session was devoted mostly to the hearing of the reports of officers, interspersed with musical selections. Mrs. C. M. Hyde, president of the board, presided at the meeting. Devotional exercises were conducted by Mrs. Kincaid. The annual reports of the board and the auxiliaries connected with the board were read, giving very interesting statistics of the work of the ladies during the past year. Mrs. Bowen presented the Home Secretary's report and Miss Sheehey that of the foreign work. The report of the cleaner's society was presented and read by Mrs. H. H. Williams. The work performed by the Lima Kokua, a Helping Hand Society, was ably given by one of the girls of Kawaiahae Seminary.

Reports by Many.

A violin solo by Mrs. Royal D. Mead, accompanied by Raymond Bowen on the piano was one of the delightful diversions in the routine of business. Mrs. Damon then presented the report of the Chinese work; Mrs. Soares, the Portuguese; Mrs. Andrews read Mrs. Jullie's report on the Japanese mission; Mrs. Andrews also read the report of the Recording Secretary for the year and Mrs. Coan that of the Treasurer.

The high water mark was reached during the preceding year in the collections and donations to the treasury which amounted to \$2,200. This gratifying result has been attained only by the zealous work of the ladies, and their devotion to the line of duty mapped out by the board.

A Luncheon at Noon.

A luncheon was served at noon to the members of the Evangelical Association under the superintendence of Mrs. Andrew Fuller and her assistants. The rooms in which the luncheon was given were beautifully decorated with flowers, donated and arranged by Mrs. J. B. Atherton. There were in all 125 persons present at the luncheon.

The afternoon session was begun with music by a double trio. The nominating committee reported the officer for the ensuing year which were the same as last with one or two changes. Mrs. Herbert Austin taking the place of Mrs. Bowen as Home Secretary. Appropriations were made for the coming year's work amounting to something over \$1,600.

The report of the Committee on Work for the next twelve months was presented by Mrs. Henry Brown, and was compiled in a neat pamphlet, consisting of the following subjects:

The Year's Work.

July—Interesting work in other societies. Report of Portuguese work. August—"Rev. Wm. Richards, Hawaii an Missionary." Mrs. Sereno Bishop, report of Japanese work. September—"The Ecumenical Council," Mrs. Ormell Gulick, report of Chinese work.

October—"Alaska," Miss Katherine M. Graydon, report of Portuguese work, report of Gleaners.

November—"Notes From Abroad," Mrs. John M. Whitney, report of Japanese work, report of Lima Kokua.

December—"Missions in Western Turkey," Mrs. Geo. B. McCollan, report of Chinese work, report of Pauphi Band.

January—"The Love of Literature in Missionary Work," Mrs. M. L. Gordon, report of Portuguese work, report of Gleaners.

February—"The Lyons Family," Miss Elizabeth W. Lyons, report of Japanese work, report of Lima Kokua.

March—"The Probable Effect of the Boer War on all Africa," Mrs. G. H. Gere, report of Chinese work, report of Pauphi Band.

April—"The Bridgman Family and Zululand," Mrs. Arthur B. Wood.

May—Praise and Thank-offering service. Personal work in China. Mrs. Edward W. Thwing.

June—Annual meeting "Thirty Years' History of Our Woman's Board," Mrs. Robert W. Andrews.

President's Address.

Mrs. C. M. Hyde then delivered the President's address on "Enlargement of Power Through Service." She dealt with duty as a factor in carrying out certain work placed upon one's shoulders. No one knew his or her ability until the responsibilities have come to them. They were not limited by their present or known ability. She took up the idea in a very intelligent manner that the performance of great duties came through natural ability and its development in the work in which one may be engaged. She spoke of great examples of this development of natural resources in the persons of Dorotea Dix and Elizabeth Fry.

Mrs. Anna Montague Turner rendered a beautiful solo with Miss Carrie Castle as accompanist. The session concluded with the singing of "More Love To Thee, O Christ," and a prayer by Mr. Soares.

DIARRHOEA AT SANTIAGO

Charles H. Marks, while acting in the capacity of nurse at the Second Division Hospital of the Fifth Army Corps at Santiago de Cuba, used a few bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea and found it to work like a charm. For sale by all Druggists and Dealers. BENSON SMITH & CO., Ltd., Agents for Hawaiian Islands.
